

The Cap and Gown Club of Princeton
61 Prospect Avenue, Princeton, New Jersey 08540

Princeton Prospect Foundation Report
Tuesday, February 27, 2018
Josephine Pinnock '19, Cap and Gown Vice President

The Cap and Gown Club places great emphasis on the combined efforts of our Chairs, Officers, and the Graduate Board to create a welcoming and inclusive environment for the members. The chairpersons elected have been involved in improving the member experience and community participation of the Cap and Gown Club in areas such as Community Involvement, Sustainability, Cultural Enrichment, and Technology. We take pride in our club members' involvement in the community and we hope that Cap and Gown continues to be an inviting environment, and serve as a place of growth for its members.

Community Outreach

The Community Outreach chairs are responsible for working with the Officers in planning club-wide community service events, while also collaborating with the Community Outreach chairpersons of other clubs, and the PACE center to increase service opportunities within the eating club community. Our community outreach chairs, Anyssa Chebbi and Vilma Jimenez coordinated a variety of events throughout the year. Such events include accepting donations and distributing stickers for the "Trick-or-Feed" initiative, raising money for Hurricane Harvey victims, and selling calendars through the CSICC to raise money for "Meals on Wheels".

Cultural Enrichment

Our Culturally Cap chairs Sergio Cruz and Clayton Otter have worked with the officers to further cultivate the diverse and welcoming environment that Cap has to offer. They provided new events for cap members to further integrate themselves into the club community. Some of these events include our annual Cap Christmas festivities, field trips, and fun events related to pop culture to get the club members excited to participate.

Technology

The technology chair is mainly responsible for maintaining the club's bicker website and being present and prepared to address any malfunctions that may occur during the bicker process. Maya Phillips took on the role this year and made it so, allowing our bicker process to go forward with minimal disruptions.

Environment

Our Sustainability chairs are responsible for educating the club membership about environmental improvements and conservation techniques that can be implemented both inside and outside the club. Our chairpersons, Nazik Elmekki and Cecilia Shang, have continued to advertise against the use of Styrofoam cups, and have promoted reusable mugs as an alternative for holding liquids. Also, they have a system of recycling cups after each night out to lessen the amount of waste. Lastly, with the weekly email that is sent out to the entire club they provide a fact of the week with hopes of reminding the community to live a green lifestyle.
