

40 Prospect Ave, Princeton, NJ 08544

**Kevin Larkin**  
**Vice President**  
**Princeton Prospect Foundation Meeting**  
**19 February 2015**

### **New Members**

- Pick-ups went smoothly and efficiently. We used noisemakers, vuvuzelas, and silly string as we walked around campus, accompanied by public safety, gathering more than 50 first-round sign-ins and bringing them to the club for a celebration at midnight.
- Other sign-in week highlights included a sushi study break, board game night, and therapy dog visit
- We are welcoming over 80 new members into the club for the Spring semester.

### **Community Service and Engagement**

- Recent events included a winter coat drive, general clothing drive, and a trip to the Princeton-Blairstown Center to prepare for the winter
- We are continuing our relationship with the Princeton-Blairstown Center, and will be hosting Campus Expeditions in conjunction with them throughout the Spring.
- Colonial is taking an active role in the new Community Service Inter Club Council, of which I am co-chair.
- We have combined Community Service with Assistant Social Chair, to create a more engaging service atmosphere.
- With these efforts, we hope to offer more activities to our members and show that we are a club that is active in serving the community.

### **Alumni Connections and Colonial History**

- We have initiated an alumni dinner series; having alumni come back to discuss their current careers, give advice, and talk about their time in Colonial
- We plan to appoint a club historian to look through our past records

### **Academic Engagement**

- The Professor Dinner Series have been restarted again for the Spring semester. We are bringing in professors on Wednesday evenings to give a talk and host a discussion during dinner about topics of their choice.

**Refurbishments**

- We recently refurbished our game room with new couches and chairs, to make a more versatile space
- We will soon be launching an updated website, to make information about the club more accessible, and to function better on mobile devices
